Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/17/04 has been entered.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Claims 28-73 are allowable because the prior art fails to teach or suggest a generating/transferring circuit having a third transistor is connected to the output node and is being unconnected to a gate of the first transistor. When the third transistor transfers a second voltage from a source of the third transistor to a drain of the third transistor, the generating/transferring circuit becomes disabled, and as long as said third transistor transfers the second voltage the third transistor is on.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
